

# DIXON EVENING TELEGRAPH.

OFFICIAL PAPER OF THE CITY BY ACT OF CITY COUNCIL

Telegraph Sixty-First Year

DIXON, ILLINOIS TUESDAY OCTOBER 1 1912

Dixon Daily Telegraph Twenty-Ninth Year No 1

## COUNCIL DEBATES PARK QUESTION

ACTING MAYOR GANNON GIVES  
HIS VIEWS ON THE  
SUBJECT.

## GRANT PETITION OF C. & N. W.

Dram Shop License Transferred —  
Action Taken on Petition of Tele-  
phone Company to Set Poles on  
Third Street and Hennepin Ave-  
nue.

### WHAT THE COUNCIL DID.

Granted C. & N. W. permission to  
make minor changes in switch track  
at foot of Monroe avenue which will  
enable them to give Frank Rink  
switch track facilities.

Transferred dram shop license of  
Loftus & O'Connell from basement  
under Plymouth to their new build-  
ing on Galena avenue.

Discussed proposed south side  
park.

Referred to Commissioner Schuler  
petition of Central Union Telephone  
company to set poles on Third street  
and on Hennepin avenue, removing  
them from Galena avenue and First  
street.

Commissioner M. J. Gannon pre-  
sided at last night's meeting of the  
city council as acting mayor, the  
absence from the city of the mayor  
and the illness of Commissioner  
Henry Schmidt, the next in rank,  
bringing the west end official to the  
chair. And during the evening the  
acting mayor gave a few more de-  
tails of his proposed park scheme  
which were of interest.

Said Mr. Gannon: The school chil-  
dren on the south side of the river  
have no spot of grass or shade where  
they can play. They are kept off the  
grass at the school grounds and are  
forced to play in the hot streets.  
And the people of this side of the  
river have no place of recreation.

"This is the best opportunity we  
ever had to get a park and it can  
be done at a nominal cost, which will  
never be felt by anyone. The total  
cost of the park will be about \$16-  
000. The grounds can be secured for  
less than \$15,000 and there is no  
doubt that \$1,000 will equip the  
grounds in fine shape. The city can  
issue bonds to run 20 or 30 years  
for this purpose and the total  
amount of special tax will be about  
\$640 a year."

### Offered a Fountain.

"I have no doubt," continued the  
commissioner, "that when this mat-  
ter comes before the people, where  
it will eventually be taken, it will  
carry by a big majority, and Dixon  
will have two parks of which it may  
well be proud. Many people have  
spoken to me favorably concerning  
this proposition and one lady has of-  
fered to donate a fine fountain for  
the park as soon as the city pur-  
chases it."

### Change Switch Track.

The council granted the petition  
of the C. & N. W. to make a slight  
change in the location of the switch  
track at the foot of Monroe avenue,  
to enable them to give switch track  
facilities to Frank W. Rink. The  
change will move the track slightly  
and will cause the switch to be placed  
further from the street.

### To Change Poles.

L. A. Pitcher and Ed Winters, rep-  
resenting the Central Union Tele-  
phone company, applied to the coun-  
cil for permission to establish pole  
lines on Hennepin avenue and on  
Third street, thus enabling the re-  
moval of poles from Galena avenue  
and from First street. The matter  
was referred to Commissioner Schu-  
ler.

### Transfers Saloon License.

The council also transferred Loftus  
& O'Connell's saloon license from  
the basement at the corner of First  
street and Armory court to the  
firm's new building on Galena ave-  
nue.

Frank Flach, chairman of the Lee  
county democratic central commit-  
tee, was a business visitor in Dixon  
today.

## FERDINAND OF BULGARIA

Ferdinand, the czar of Bulgaria, is  
believed to be playing a deep game to  
add Macedonia to his realm as the  
outcome of the present threatening  
state of affairs in the Balkans. The  
Servians seem eager for war with Tur-  
key.

## BEGIN BIG BOMB TRIAL

Labor Leaders Formally Ar-  
raigned in Federal Court.

Two Sets Each of Fifty Veniremen  
Have Been Drawn From Indiana  
for Jury Selection.

Indianapolis, Ind., Oct. 1.—The trial  
of the 51 present and former labor  
union officials on a charge of conspir-  
acy in the carrying of dynamite and  
nitroglycerin on passenger trains be-  
gan here today before Judge A. B. An-  
derson in the federal building.

United States District Attorney  
Charles W. Miller appeared for the  
government and Attorney William N.  
Harding for the accused men.

Two sets each of 50 veniremen have  
been drawn from Indiana for the se-  
lection of a jury. The defense is to be  
allowed a total of ten and the prose-  
cution a total of six peremptory chal-  
lenges.

The offices of the International As-  
sociation of Bridge and Structural Iron  
Workers, where President Frank M.  
Ryan and Secretary Herbert S. Hock-  
in, two of the defendants, have head-  
quarters, were crowded early this  
morning. The majority of the visitors  
were defendants from out of the city  
anxious to have a final conference  
with William N. Harding, the counsel.  
Senator John W. Kern was expected  
to confer with them later. More than  
thirty attorneys from other cities are  
here.

Judge A. B. Anderson's courtroom  
in the federal building has a seating  
capacity of 200. The defendants, attor-  
neys, jurors, newspaper correspond-  
ents and court attaches occupied more  
than three-quarters of the space, leav-  
ing less than fifty seats for specta-  
tors.

## INSURANCE PLOT CHARGED

Heads of Modern Workmen Indicted  
for Conspiracy.

Washington, Oct. 1.—An indict-  
ment for conspiracy was found here  
by the District of Columbia grand  
jury against Samuel J. Masters and  
John B. Kinnear of the fraternal or-  
ganization known as the Modern  
Workmen of the World. Charles A.  
Hartman, Frank T. Evans and Blon-  
d. Cahill, heads of the Royal Life  
insurance company, were included in  
the indictments. It is charged the  
defendants conspired to defraud the  
policy holders of the fraternal con-  
cern out of \$12,138.44 by turning the  
assets of the Modern Workers over  
to the insurance company, a District  
of Columbia corporation. The two con-  
cerns were to be merged, it is al-  
leged, and Masters and Kinnear were  
to receive \$22,000 out of the assets  
transferred as salaries for alleged  
service to the insurance company.

## PROGRESSIVE HEADQUARTERS.

The progressive headquarters,  
which have been equipped under the  
direction of A. G. Harris, chairman  
of the executive committee, in the  
basement of the Dewey hotel, will  
be formally opened with a public  
meeting this evening, to which the  
public is invited, and an especial in-  
vitation is extended to ladies. There  
will be a Victrola concert and ad-  
dresses by Attorneys Clyde Smith

While looking for some papers  
last week A. E. Simonson discovered  
a telegram which is of especial in-  
terest because of its age. The mes-  
sage was sent from New York City  
Sept. 21, 1877, to his father, the late  
Henry Simonson. The form of the  
agreement stated on the message  
blanks then was practically the same  
as the Western Union demands now.

## BIG BATTLE IMMINENT

Mexican Rebels Mass Troops  
on the Frontier.

State Department Grants Madero Per-  
mission to Cross to Texas With  
Soldiers to Fight Insurrectos.

Washington, Oct. 1.—The state de-  
partment gave permission to Presi-  
dent Madero to transport a brigade of  
his troops from El Paso to a point  
near Del Rio on the Mexican frontier.  
The Madero government was informed  
that the rebels had massed at that  
point notwithstanding the frequent re-  
ports that the "northern half of Mexico  
had been pacified." Now it is appar-  
ent that a big battle is imminent near  
the northern frontier.

It was reported at the department  
that Governor Colquitt of Texas had  
taken the states rights view of the  
transportation of federal troops and  
had protested against the passage of  
Mexican troops. The acting secre-  
tary of state has a telegram from Gov-  
ernor Colquitt, but he says that the  
governor has not protested. The right  
to grant the permission to foreign  
troops to pass through American soil  
is claimed by the state department.

## WIFE STOPS \$100,000 SUIT

Testifies That Love for Husband Was  
Dead, Hence Valueless.

New York, Oct. 1.—By testifying  
that her love for her husband died  
three months after they were married  
and that therefore another man could  
not be held for alienating an affection  
which she did not possess, Mrs. Lil-  
lian Young Charters, a Christian  
Science teacher, saved a Texas mil-  
lionaire from a suit for \$100,000 dam-  
ages, instituted by the woman's hus-  
band. The Texan is L. L. Temple,  
president of the Texarkana Lumber  
company.

## FLYER DIES IN AIR CRASH

German Officer Fatally Hurt as His  
Aeroplane Strikes a Tree.

Sonnenburg, Germany, Oct. 1.—The  
death of another German army aviator,  
Lieut. Willy Hefer, occurred here.  
He was injured during the imperial  
maneuvers in Saxony, when his aero-  
plane struck a tree while he was mak-  
ing a reconnoitering flight. It was  
at first believed he was not seriously  
hurt, but his body was so shaken in  
the accident that he never rallied.

## ALLEY OPEN THURSDAY.

Vaile & Tippet announced this  
morning that the work of repairing  
and redressing their bowling alleys  
would be completed in time for the  
opening of the alleys Thursday eve-  
ning. This event is being anxiously  
awaited by the bowling fans of the  
city, and already several teams have  
been organized.

## NATE HALLER IS HERE.

The many friends of N. G. Haller,  
formerly of this city, are pleased to  
see him again, after an absence of  
two and a half years spent in Cali-  
fornia and other western states. For  
the past year Mr. Haller has been  
engaged with a party in organizing  
the Gold Note Mining and Milling  
company at Kennedy, Humboldt Co.,  
Nevada. The company owns seventy  
claims and has a proposition that  
interests those acquainted with ores.

## SCHOOL BOARD MEETS.

The board of education of the  
south side schools will meet tmor-  
row evening.

## ABE MARTIN

There'd be very few relatives on  
speakin' terms if it wuzn't for state  
fairs. Th' boy that whistles on th'  
road t' school may never be presi-  
dent, but it's a cinch he won't have  
to carry a nod.

## INTERURBAN FARE HAS BEEN REDUCED

COSTS BUT 25 CENTS TO GO TO  
STERLING NOW—MANY  
OTHER CHANGES.

## TO MAKE RUN IN 35 MINUTES

Dixon Will Have Pay-As-You-Enter  
Cars in a Few Days—Freight and  
Express to Go on Special Car —  
Company Buys New Plow and  
Sweeper.

Superintendent Dean Treat of the  
S. D. & E. has announced that the  
rate between Dixon and Sterling has  
been reduced to the old fare of 25  
cents each way. Further announce-  
ments of Mr. Treat are to the effect  
that the company has purchased a  
big snow plow that will do all that  
is required of it, a street sweeper  
with which the company will sweep  
the streets over which it operates  
daily, and that a baggage car to  
make at least three trips daily, will  
soon be put into service.

### To Make Faster Time.

New equipment for the interur-  
bans has been ordered and when it  
is received and installed the cars  
will make the trip between the two  
cities in 35 minutes, a reduction in  
the running time of about 15 min-  
utes. The equipment for the city  
cars, to convert them into pay-as-  
you-enter cars, is also expected in a  
few days, and as soon as the neces-  
sary changes in the cars are made,  
the practice of stopping all cars at  
the "near" crossing will be adopted.

### Improve Freight Service.

The company has purchased a com-  
bination baggage car, sweeper and  
plow, in which it is proposed to car-  
ry all freight and express, thus do-  
ing away with the use of the vesti-  
bules for that purpose.

## AUTO ORDINANCE CALLED ILLEGAL

CHARGE MADE THAT ORDIN-  
ANCE WAS NOT LEFT ON FILE  
AFTER AMENDING.

It is now charged that the auto-  
mobile ordinance, which the city  
council passed a week ago, after sev-  
eral weeks of discussion and con-  
siderable amending by the commis-  
sioners, is not legal. The contention  
is raised that the ordinance was  
passed the same night the four sec-  
tions were stricken out, and that the  
law requires that an ordinance must  
always remain on file for one week  
after any change has been made in  
it. The city attorney is now investi-  
gating the matter.

## OPEN AIR MEETING TONIGHT

BOY EVANGELIST WILL CONDUCT  
MEETING AT FIRST AND  
PEORIA.

Eljoseph Raycroft, the juvenile  
evangelist, will conduct an open air  
meeting this evening on the corner  
of First street and Peoria avenue,  
commencing at 8 o'clock.

A wagon containing an organ will  
be placed at the corner, and singing  
as well as preaching will be heard.  
The meeting will be held in the  
West Side Congregational church  
again tomorrow evening, beginning  
at 7:30, and a large attendance is  
expected.

## CANDIDATES ARE BUSY.

States Attorney Harry Edwards  
and Circuit Clerk Wm. B. McMahan  
drove to Ashton today and spent  
the day meeting the voters of that  
place. Both of these gentlemen are  
candidates for re-election on the re-  
publican ticket.

## RALLY AT WALTON.

The democrats of Marion have an-  
nounced that they will hold a big rally  
at Walton Oct. 8, and a number  
of Dixon members of the party are  
arranging to attend.

Sheriff Reid transacted business  
in Hamilton township yesterday.

## MISS HELEN M. GOULD

Miss Gould is to be the chief guest  
of honor at a great banquet in Chicago  
Thursday night which will open  
the annual conference of Railroad  
Young Men's Christian associations.

## POULTRY BAZAR IS IN FULL SWING

POULTRY ASSOCIATION ENTER-  
TAINING BIG CROWDS AT  
ROSBROOK HALL.

The bazar being given by the Dix-  
on Poultry association opened at the  
Rosbrook hall last evening and al-  
though here yesterday to make ex-  
tensive changes in the pole lines of  
that company in the business dis-  
trict, to conform with the recent or-  
ders of the city council that the poles  
be removed from First street and  
Galena avenue.

Although the Central Union tele-  
phone company disposed of its Dixon ex-  
change to the Dixon Home Telephone com-  
pany, it still maintains through the  
city its toll lines, and these are the  
lines that will be moved.

### On Hennepin Avenue.

The company proposes to remove  
every pole from Galena avenue from  
Everett to Third streets, and will  
also take down all of its poles on  
First street. To do this the pole  
lines will be erected on Third street  
and on Hennepin avenue, the new  
line entering the city at Artesian  
Place, thence west on Third street  
to Hennepin avenue, and north on  
Hennepin avenue to Everett street.

The poles of the Home Telephone  
company in Artesian Place will be  
used, but the Central Union will er-  
ect its own line the rest of the way.  
Entrance to the Home Telephone  
company's exchange will be made  
through the alley, and it will also  
be necessary to loop the river at  
Hennepin avenue, an expensive prop-  
osition.

### Asked Council's Permission.

Mr. Winters, accompanied by  
Manager L. A. Pitcher of the Home  
company, appeared before the coun-  
cil last evening and asked permis-  
sion to make these changes, which  
matter was referred to Commis-  
sioner Schuler with power to act. There  
is little doubt the permission will  
be granted and that the work will  
start at once.

## GOOD BASEBALL PICTURE.

Ed Rosenthal has on exhibition  
in his window the latest "Yard of  
the National Game," showing the  
Cub ball park in Chicago and the  
members of the team. An excellent  
likeness of Ward Miller is given in  
the picture.

Are truthful, conscientious, pure in nature, somewhat prudish, musical, fond of poetry, studious, mathematical, somewhat doubtful of your ability, have an intensity of nature that may mislead. Still, you have immense power for good. You love to read, but if a woman of family, will sacrifice this desire. There are not many loose ends about things in your house.

The ideal is nothing more nor less than the culminating point of logic, even as the beautiful is nothing more nor less than the summit of the true. The artist people is thus the consistent people. Seavey-Keithley.

A beautiful little home wedding occurred yesterday at 3 p. m. at the home of Mrs. E. Honey when Miss Emma, youngest daughter of Fletcher Seavey, became the bride of Enos Keithley. The home was tastefully decorated with trailing vines and autumn foliage, beautiful green leaves forming a bower before which the bride and groom stood to take their vows. Preceding the ceremony Miss Myrtle Poney, niece of the bride, sang the beautiful little love lyric, "I Love You Truly," her accompaniment being played by Mrs. John Byington, who later played the wedding march. The service, which was impressively read by Rev. Fred Stone, was witnessed by only the immediate families of the bride and groom and a small company of intimate friends.

Following congratulations dainty and delicious refreshments were served. Both young people spent most of their lives in our city where they are well known and much beloved by a large circle of friends who join with us in sincere good wishes for their future.

Very attractive and beautiful decorations were in red hearts and white ribbons.

The tables were exquisitely appointed and fairly groaned with the good things to eat. Chicken, oysters, celery, fruit, ice cream, cake, coffee, etc., formed part of the appetizing repast.

The friends assembled presented to Miss Compton a beautiful cut glass dish and a dainty jelly spoon. They gave to Mrs. Seybert a cut glass dish and a set of handsome silver knives and forks. The recipients were overcome at these tokens of regard and thanked the donors heartily. Music was one of the evening's diversions and all report a delightful time.

one of Autumn's favorite flowers, the flaming salvia, with background of autumn leaves, whose colors of russet, orange, red and brown made charming color contrasts.

Games were played, selections of instrumental music enjoyed and a short, interesting address given by Mr. Bailey of the Y. M. C. A., likewise one by Rev. Altman in his usual gracious manner. On dispersing all participating expressed pleasure at the splendid time afforded.

ANYTHING TO SAVE THE HAT

Lucinda Forced to Smile at Antics of Men Caught in Rain With New Straw Headgear.

"I have nothing to say against men," said Lucinda, "but really it makes me smile to see them in the straw hat season when a shower comes. At such a time you may see a woman in all her finery keeping calmly on her way quite unruffled, while men are darting into open doorways or starting to run, all to protect their precious straw hats from a few drops of rain. And what funny things they do besides!

"Plenty of men when the sprinkle begins take off their hat and carry it sort of carelessly down at their sides, as if they had taken it off just to cool their fevered brow, don't you know, to make themselves more comfortable; but really so that less of the hat's surface may be exposed to the rain. And then you may see a man carrying his hat so tilted that the rain will fall on the under side of the brim and not on the top and crown.

"You may see some men take off their hat and put it quite frankly under their coat and hold that over it to keep it dry, while the number of men who open out a newspaper and hold that over their bright straw hat is not small.

"The man who holds a newspaper over his hat tries usually to do this with a careless air, as if he didn't care much about it, but thought he might as well give his hat some protection. But sometimes you see a man wrestling with a newspaper desperately.

"Here, for instance, was a man who had been standing in a doorway waiting for a car, and who now when he saw his car coming, clapped a newspaper over his hat and ran out into the rain. Heavy business this was, for he had to hold that newspaper on with one hand while he grabbed for the handhold on the side of the car with the other. And after all I know he must have found that his hat had been ruined when he got aboard.

"But here was another man, who with the aid of a newspaper was keeping his hat absolutely dry. He had carefully and completely wrapped his hat up in a newspaper, and now here he was with his hat so wrapped and carried under his arm, walking bareheaded down Broadway!

"Really, it does make me smile when I see what men do with their hats when a shower comes."—New York Times.

Effectually Aroused.

A large, perspiring individual entered a subway train at one of the uptown stations yesterday afternoon, squeezed himself into a seat between two women and promptly went to sleep. He nodded, he swayed from side to side with every motion of the car, and at last, to the secret delight of every passenger opposite, began slowly but surely to lay his head on the shoulder of one of the young women beside him. At this juncture the unexpected happened. Without even raising her eyes from her paper the young woman reached into her bag with one free hand, drew forth a small silver vinaigrette of smelling salts and carefully placed it under the sleeper's nose. There was a rumbling sound, followed by a series of sneezes, and the man sat bolt upright, blinking in bewildered fashion, while the car echoed with laughter. The only person who took no part in the merriment was the young woman, who calmly replaced her vinaigrette and went on reading. The man remained wide awake for the rest of the trip.—New York Times.

Wanted it Complete.

Several days ago a housefurnishing shop on Chestnut street, west of Broad, had a display of bathroom supplies in their window. In one corner was a bathtub. Over this was hung a portable shower with a sign attached which read, "Complete, \$10." A man came into the store and said to the salesman, "I'll take the shower." The latter was rather surprised that such a seedy-looking individual would make such a purchase and said, "We do not send these 'C. O. D.'s." "That's all right," he replied, and took a ten-dollar note from a roll of bills. In the course of the day the shower was delivered to a certain address. The next day a little girl came into the shop, and giving the address of the purchaser of the day before said, "We got the shower all right, but my father wants to know where the bathtub is." The firm sent for the shower and returned the \$10 bill without comment.—Philadelphia Ledger.

Pump for Horn Players.

The patient German inventor has produced a new labor-saving device; this time it is meant to make easier the work of the man who plays a wind instrument.

To maintain at the lips an air pressure required for some wind instruments is fatiguing. Besides this the necessity for taking breath once in a while makes it almost impossible to render properly long passages full of sustained notes.

Hence the inventor has devised a machine operated by the foot which conveys air under pressure by a tube to the mouth of the player. It would be, of course, impossible to attach the tube from the bellows directly to the instrument, since it is by the mouth that character is given to the sounds.

But the musician using this invention will have his mouth constantly filled with air, and can breathe in through his nose without interrupting his flow of music.

DANGER PERIOD OF WOMAN'S LIFE FROM 45 to 50

Interesting Experience of Two Women—Their Statements Worth Reading.

I am today practically a well woman and anxious to contribute my mite towards inducing others to try your great medicine, as I am fully persuaded that it will cure the ailments from which I suffered if given a fair chance.

"If you think this letter will contribute anything towards further introducing your medicines to afflicted women who are passing through this trying period, it is with great pleasure I consent to its publication."—Mrs. JULIA A. MOORE, 17 East St., Asheville, N. C.

## Dementtown

This col. has just learned of a painful experience that lately befell our friend, C. Harold Johnson. It seems that Mr. Johnson was a member of a dinner party, at which sour wine was served. Several of the guests remarked about the extreme acidity of the beverage, but Mr. J. slipped his complacency, remarking while the while that he simply loved sour wine. It was not until he had imbibed several glasses of the stuff that anyone discovered that the good hostess had gotten hold of the wrong jug and had served the guests with 560d cider vinegar.

We know a couple of fellows who think they are getting close to nature by making love to a grass widow.

Likewise it is certain that there are a number of people in Dixon who are just chuck full of music—they never get any of it out of them selves.

## 15,000 STRIKE AS LABOR PROTEST

Workers at Lawrence, Haverhill, Lynn and Quincy Quit Posts.

### FIFTEEN INJURED IN RIOTS

Demonstrations Against Imprisonment of Ettor and Giovannitti Affect Four New England Industries—Many Mills Are Closed.

Boston, Oct. 1.—Violence marked the beginning of the twenty-four-hour strike demonstration which the Industrial Workers of the World called in four Massachusetts manufacturing cities as a protest against the imprisonment of two of their leaders. Demonstrations ranging from parades to serious rioting took place in Lawrence, Lynn, Haverhill and Quincy. It is estimated that 15,000 workers were out.

The most serious disturbances occurred at Lawrence, where pickets and police clashed. Nearly a score of persons were hurt and a dozen arrests were made.

The outbreak coincided with the opening in Salem of the trial of Joseph J. Ettor and Arturo Giovannitti, two of the leaders of the Industrial Workers, and of Joseph Caruso, a mill operative, in connection with the killing of Anna Lopizko during one of the riots in last winter's strike in Lawrence. The cotton, woolen, shoe and granite industries chiefly were affected.

Workers Dragged From Quarry. Next to Lawrence, the largest number of workers were out in Quincy, where 2,500 granite workers struck. Strikers marching through the quarry district called to the workmen to come out. At two of the sheds the police were dragged out forcibly.

Five hundred strikers marched through the shoe manufacturing district of Lynn trying, generally with success, to get the operatives to leave their benches. The police arrested one man waving black and red flags in the crowd. A mob then tried unsuccessfully to rescue him.

At Haverhill about 250 shoe operatives struck. Pickets had conflicts with employees going to the Lawrence mills. A dozen arrests were made for attacks upon children, women and men, some of those taken being armed with revolvers, knives or other weapons, such as hammers, bolts or pieces of iron.

Many Veniremen Assemble. Salem, Mass., Oct. 1.—Three hundred and fifty possible jurors were at the Essex county courthouse when the trial of Ettor, Giovannitti and Caruso was opened.

The first step was the filing of a motion with Judge Joseph P. Quinn for the discharge of the entire venire, on the ground that in many instances names were illegally drawn. Arguments on this question were expected to consume considerable time.

Treasure Hidden Fifty Years Ago Is Found on Mountain in West.

San Jose, Cal., Oct. 1.—Seventy-five thousand dollars' worth of buried treasure was unearthed by a Mexican banker of Ensenada, state of Sonora, on a mountain ridge in Benito county, according to a story told here by William Rogers, who says he acted as the Mexican's guide. Rogers says his employer carried a map true in every detail to the topography of the section. Two Mexican laborers accompanied the banker and dug out the treasure chest—an iron bound oak box, partly rotted with age. It was discovered eight feet under ground at the foot of a huge oak tree. The treasure consisted of \$10,000 in silver bullion and \$65,000 in gold ingots.

## SAYS HARRIMAN'S GIFT WAS \$50,000

Rail Magnate's Secretary Tells of Former's Campaign Contributions.

### RECORD DESTROYED BY BLISS

Accounts Fail to Show Aid by Archbold or Standard Oil for Roosevelt—Son of Party Treasurer Senate Inquiry Witness.

Washington, Oct. 1.—C. C. Tegethoff, former private secretary to the late E. H. Harriman, testified before the senate committee investigating campaign fund donations here.

Mr. Tegethoff produced a series of papers from the Harriman estate files. The first was a receipt signed by C. N. Bliss as treasurer of the national Republican committee, dated 1904. It was for \$50,000, which Mr. Tegethoff said was Mr. Harriman's contribution to the Republican campaign fund of 1904.

Then Mr. Tegethoff put in the record a series of letters in which President Roosevelt asked E. H. Harriman to visit him at the White House during the fall and winter of 1903. Letters continued up to May 17, when President Roosevelt wrote asking Harriman if he could "take lunch with me on Monday, May 23."

The date, according to a rapid exchange of letters produced, was finally fixed for Wednesday evening, May 25, when Mr. Harriman consented to dine at the White House.

In a subsequent letter written by William Loeb, then secretary to the president, it was set forth that "Secretary of State Knox, Mr. Cortelyou and Senator Murray Crane would also be present."

### Records Destroyed by Bliss.

Commerce Secretary, Jr., was the first witness.

Under examination by Senator Paynter the witness said that his father had told him he allowed the books of the treasurer's office of the Republican national committee to be destroyed because he, the elder Bliss, believed the records useless.

They contained, he said, the names and amounts from various contributors. The witness did not know who destroyed them.

He said he was an executor of his father's estate and had sole custody of his father's papers.

"Have you found any papers bearing on the campaign funds handled by your father?" asked Chairman Clapp.

Mr. Bliss placed in evidence a report from the auditor who examined his father's accounts when he resigned as treasurer of the Republican committee. He said the records did not show any contribution by John D. Archbold or the Standard Oil company. Members of the committee examined the records.

The letter added that the Republican committee's receipts in 1900 had been "a trifle below \$3,000,000," in 1896, \$3,500,000, and in 1892, \$1,600,000.

### Roosevelt Letter Read Privately.

The witness said he had discovered three other letters of a "personal and more or less intimate nature." These he handed to Chairman Clapp. One was from President Roosevelt; another from William H. Taft, as secretary of war.

The committee suspended its inquiry for a few minutes while the members read the letters privately.

While the committee at first seemed confused as to the disposition of the three letters to Mr. Bliss, put in evidence, the substantial portions of them were finally made public. Two were of no particular import, but the third, dated March 26, 1906, written by President Roosevelt from the White House to Mr. Bliss in New York, made specific denial that he had ever been influenced for or against any persons or interests as a result of contribution to the 1904 campaign.

THE HEAVENS  
IN OCTOBER

A LITTLE INFORMATION ON ASTROLOGY FOR THIS MONTH.

During the cool October evenings the skies are of a darker blue than in the summer months, and the stars seem more numerous and of a keener brilliancy. Many of the principal star groups have disappeared, but the eastern horizon grows nightly more attractive and the central region of the sky and the stream of the Milky Way are studded with asterisms.

The ringed planet Saturn is now the most conspicuous object in the east, though the famous Pleiades, the Hyades and the variable stars, Algol and Mira, compete with it in interest. Saturn is increasing in brilliancy and this increase will continue until the end of November, when he will be in opposition and will shine his brightest of the year. The planet's marvelous rings are now in good position for seeing and a pair of good binoculars will disclose them. His belts and family of moons require a more powerful instrument.

## Planets Steady Shiners.

It is interesting to observe the steady-shining, yellowish face of Saturn, which differentiates him from the twinkling stars around him. This sobriety of expression is characteristic of all the planets and is explained partly by their relative nearness to the earth and partly by the fact that they send us only reflected sunlight, while the stars shine themselves.

Algol, the Demon Star in Perseus, whose variations have been visible through September, must now divide attention with Mira (The Wonderful) in the constellation Cetus (The Whale). This famous star was the first whose brightness was found to change periodically.

In 1596 David Fabricius, a German amateur astronomer, noted that Mira was not at all times visible to the naked eye, though it sometimes runs up to the third, or even the second magnitude. These maxima recur at intervals of about 339 days, though they do not always arrive punctually, the star's period varying a month or more at times. At its best, Mira outshines the North Star.

## Mira a Spotty Star.

Mira's phases are not to be accounted for like those of Algol, which is believed to be partially eclipsed at three-day intervals by a dark star revolving around it in an orbit turned edgewise to the earth. It is thought probable that Mira is suffering from a severe attack of sun spots. Our own sun is a slightly variable star, as seen from other systems, and this may be partially due to its spots. Mira's magnitude is now decreasing.

Though Mira was the first variable star discovered in modern times the name Demon Star would seem to indicate that the ancient Arabian astronomers had detected some peculiarity in Algol's behaviour. Algol's period has been determined with great exactness, so that it is easy to predict its minima. During October the star will be at its minimum—about magnitude 3.1-2—at 3 o'clock eastern standard time, on the morning of the 8th; at midnight of the 10th and at about 9 o'clock on the evening of the 13th. The next four minima will come during daylight. On October 28th the minimum comes at about 5 o'clock in the morning.

## At Faintest Only 15 Minutes.

At its maximum Algol is little below the second magnitude. The fading away of this star takes place in about four hours. It remains at its faintest for only about a quarter of an hour, and in five hours more has regained its full brightness.

Saturn is the only planet visible at the hour of the map, but, earlier in the evening both Jupiter and Venus will be visible in the western sky. By the end of the month Venus will be nearly two hours above the horizon at sunset. Jupiter is getting lower in the sky each night. By the end of the month these two planets—the brightest of heavenly bodies except the sun and moon—will be in the same region of the sky, presenting a beautiful spectacle.

BALKAN CRISIS  
GROWS MENACING

Turkey Concentrating 100,000 Men Along the Bulgarian Frontier.

## WAR APPEARS AS INEVITABLE

Reports From Sofia Indicate That People Are Crowding Streets and Demanding Hostilities at Once—Diplomats Confer.

London, Oct. 1.—War between Bulgaria and Serbia on the one side and Turkey on the other seems unavoidable, according to dispatches received here from Sofia and from Athens. Proclamations have been issued by both the Bulgarian and Serbian governments calling for general mobilization of their armies, while Turkey is concentrating all available forces, 100,000 men, consisting of eleven divisions of the "Redifs" or reserves, in the vicinity of Adrianople and along the Bulgarian frontier.

## People Demand War.

Reports from Sofia indicate that crowds in the streets have grown to thousands, all demanding war at once, while Turkish troops ordered from Thrace into Albania have been ordered back to their stations, so that no reinforcements have been sent to Salonica, the Dardanelles or Smyrna for use against the Italians.

## Balkan Situation Serious.

Here in London the Balkan situation is regarded as decidedly serious, only the lateness of the season and the efforts of the powers to keep the peace staving off immediate war. Activity prevailed at the Russian embassy all night and Foreign Minister Sazonoff completed arrangements to meet a number of interested diplomats, including the Italian and Turkish ambassadors and Serbian charge d'affaires today. Hostilities have been stopped on the island of Samos, where the rebels are seeking freedom from Turkey and annexation to Greece.

## Greece's Army Preparing.

Athens, Oct. 1.—Greece has ordered a complete mobilization of all her army and navy in preparation for eventualities on the part of Turkey, which has mobilized its army. Greece has an agreement with the Balkan states to the effect that if Turkey seeks war with them Greece will assist the Christian nations against the Mohammedans.

## LYNCHING IS STAGED

Negro Thief Made to Confess by Unique Means.

Sheriff and Farmers at Kenosha, Wis., Administer New "Third Degree" and Recover Shotgun.

Kenosha, Wis., Oct. 1.—With all the accompaniments of a real lynching, a new police "third degree" was administered to Wiley Davis, a negro, until he confessed the whereabouts of a shotgun he had stolen. The test was conceived by Sheriff Andrew Stahl, who organized a "mob" of farmers to "storm" the Kenosha jail. They dragged Davis out and, ignoring the sheriff's "pleas," hurried the negro to a tree in a nearby woods. A rope had been adjusted about his neck and apparently he was about to be strung up when he shouted:

"Don't hang me! I'll get the gun!" Rope still about his neck, he was permitted to lead the mob to a clump of bushes, where the shotgun was found under a pile of leaves. Then the rope was removed and he was returned to jail.

Prior to the attempt at "lynching" Davis had taken oath that he knew nothing about the theft of the shotgun.

## QUAKE SHAKES VALPARAISO

People Panic-Stricken as Shock Rocks South American City.

Valparaiso, Chile, Oct. 1.—Panic in consequence of the prediction of earthquakes caused most of the inhabitants of Valparaiso to pass the night in tents pitched on the open spaces and in the parks, where bands played to cheer them, while troops patrolled the streets. FASHION HINTS FROM BISCHOF  
Of Course You'll Need a Tailored Suit

This season you will see many delightfully new and attractive departures in the tailor-mades which will, without doubt, instantly appeal to you.

## "FINGER-TIP" LENGTH SUIT COAT

For several seasons past short coat suits have held full sway—but this Fall we enthusiastically welcome back the becoming "finger-tip" length—one which gives the coat graceful lines—the one which becomes any figure. The whole effect of the Fall tailor-mades are long, graceful lines.

Moderated cutaways and flowing collars emphasize the long lines on the fronts of these coats—shirred and belted backs, suggesting the Empire effect, carry out further the dict of fashion—long, slender lines.

The skirts, though plaits are used in many, retain these straight, narrow lines. These plaits are set in and are stitched down to the knees then pressed flat to avoid any flare.

With all of these new features, however, marked simplicity is the keynote of every Bischof tailored model.

You no longer have to study for hours over the material for your tailor-made, then go time and again to the tailor for fittings, and worry about how it will look. You can come to our store and get a perfectly tailored Bischof model, in any of the fashionable materials—try it on and know at once that it is becoming. You are sure to find just what you want.

## THE BLUE BIRD.

World Famed Fairy Drama's First Visit to Chicago—At the Lyric Theatre.

The New Theatre's famous production of The Blue Bird, the exquisite fantasy by Maeterlinck, will be presented at the Lyric Theatre commencing Monday evening, Sept. 30. No play has made quite so profound a sensation in America.

No scenes have yet been conceived that can compare in beauty and compelling weirdness with the Palace of Night, The Kingdom of the Past, the Land of Happiness, and other lands born of the poet's imagination where Tyltyl and Mytyl have their adventures. In the Blue Bird Maeterlinck has revealed a new and comforting philosophy of life, expressing it through the light and delicate fancy of the pursuit by two children of the blue bird, the symbol of happiness. They are accompanied on their journey by Bread, a jolly, grotesque individual; Milk, a beautiful, timid creature; Water, a flowing sylph like girl; Fire, a hissing tempestuous youth; Sugar, a silly chap with candy hands; the faithful Dog; the sly scheming Cat, and other things and animals embodied in human form by the magic of Fairy Berlune. So intricate are the various scenic effects that nearly a year was spent in their preparation. Beauty, fantasy, wisdom, humor and a delightful tenderness are all blended into one. The Blue Bird brings tears to the eyes and chases them away with laughter; plunges you in reverie and startles you with some joyous surprise. Children and those who like to take their amusement lightly derive infinite pleasure from the amusing actions and witty sayings of animals and things turned into human beings. To those who look deeper, however, the author has furnished a bottomless well of mysticism, romance and inspiring symbolism. Particular attention will be given out-of-town orders; mail orders accompanied by remittance and self-addressed stamped envelope will receive prompt attention. All orders should be addressed to Manager J. A. Reed, Lyric Theatre, Chicago, Illinois.

### JEFFERSON DAVIS

GUARDS LIVE HERE

Dixon, Ill., July 27, 1912.  
Editor Evening Telegraph,  
Dixon, Ill.

Dear Sir—The following was clip-  
ped from the Denver Weekly Post of  
July 27, 1912:

Jefferson Davis Guard Dies.

Wilkesbarre, Pa.: Michael O'Brien  
last survivor of the squad of Union  
soldiers who stood guard over Jef-  
ferson Davis while the latter was a  
prisoner, is dead here in his 73rd  
year.

The article is erroneous, as I was  
one of the men who guarded Jef-  
ferson Davis, president of the defunct  
Confederacy, while at Fortress Mon-  
roe and Mark D. Stevens of Palmyra  
was also a member of my regiment,  
the Third Pennsylvania Heavy Ar-  
tillery Volunteers.

Yours,  
JOHN B. FORD.

## Dramatic Notes

### FAMILY THEATRE

A Hallowe'en Hop, a miniature  
musical comedy, presented by seven  
people, was witnessed at the Family  
last evening by two large crowds.  
The play contains a number of songs  
and choruses and is prettily staged.  
The other act is a musical one, with  
selections on various instruments.

### MOTORIST PAYS FOR

#### DOG HE KILLED

About a month ago a party of au-  
tomobile tourists drove past the  
farm of Scott Lowry, who resides a  
mile above Grand Detour.

Mr. Lowry's dog, a St. Bernard,  
about six and a half years old and of  
which he and his family were very  
fond, by name Ponto, was run over  
and badly injured by one of the au-  
tos. The children were deeply grieved,  
but it was one of the unavoid-  
able accidents which sometimes hap-  
pen.

The man owning the car stopped  
it and came back to where the in-  
jured dog lay. He expressed his re-  
gret at the accident and asked Mr.  
Lowry to let him know if the dog  
recovered. He also asked the animal's  
value. Mr. Lowry told him he  
bought him as a puppy for \$10 and  
had had him for six years, during  
which time the dog's sagacity and  
faithfulness had endeared him to  
the family, especially the children,  
almost beyond price.

Despite careful nursing Ponto  
died. Mr. Lowry wrote to Lewis J.  
Hopkins, in the Rookery Building,  
Chicago, telling him of the death  
of the dog, and received a kind let-  
ter and a check for \$10.

Little incidents such as the above  
revive one's faith in human nature,  
or rather, in the honor of man.

### Anecdotes of Henner.

Mme. Steinheil's extraordinary "Me-  
moirs" contain some bits of person-  
al anecdote in startling contrast to the  
horror she depicts of the notorious  
murder case, prison experience and  
trial. She writes of Henner, the cele-  
brated painter of milk white auburn  
haired beauties unadorned.

"I never knew Henner to be em-  
barrassed. But if he was never em-  
barrassed he had embarrassing hab-  
its, the worst of which was that of  
examining the shoulders and arms of  
ladies in décolleté with unperturbed  
insistence. And not infrequently he  
would say: 'Allow me, just one sec-  
ond; I want to feel the grain, the qual-  
ity of your skin.'"

"And before the victim had time to  
move he would press down his hairy  
and grimy forefinger on her bare arm  
or even on her neck.

"Withdrawing his fingers, he would  
pass some such remark as this: 'It's  
really wonderful. I never grow tired  
of feeling flesh. It is all made of lit-  
tle dots—blue, white, green, pink, pur-  
ple, yellow. That is what flesh is.'"

### Unappreciated Mercies.

"You're glad to get them back  
again. I guess," said the optician as  
he carefully adjusted a pair of spec-  
tacles on a customer's nose.

"Yes," replied the customer, a  
boy of eighteen, "I am indeed."  
"That poor boy," explained the op-  
tician after the youth had left the  
shop, "has practically lost the sight  
of one eye, and the other is so near-  
sighted that he can see with it only  
by the aid of the strongest glass.  
Hard to go through life so handi-  
capped!"

"And I've been groaning and com-  
plaining," said the man who had just  
had a pair of eyeglasses made, "be-  
cause I have to wear specs to cor-  
rect a mild astigmatism. How little  
we appreciate our mercies!"

### Price of Fur Advances.

The price of every fur except bear  
advanced last year. Fine sable skins  
brought \$200 each, arctic fox from \$100  
to \$250 a skin; wolf, \$6.50; squirrel,  
from 15 to 32 cents; bear, \$7.50.

## Adrift with Humor

### Not Now.

"Who's the rummy you've just  
brought in?" inquired the police ser-  
geant.

"He says he's a congressman," re-  
sponded the patrolman.

"What district?"

"I asked 'im that, an' he said he was  
a congressman at large."

"Well, he isn't!" snapped the ser-  
geant. "Lock him up!"

### Presence of Mind.

"Oh, John!" shrieked Mrs. Dorkins.  
"The baby has swallowed a silver  
quarter!"

Mr. Dorkins took a handful of  
change out of his pocket and looked it  
over.

"Calm yourself, Marj," he said. "It  
was that counterfeit quarter I've been  
trying to get rid of."

### The Postcard Habit.

"Well, Hiram, your summer board-  
ers seem to have about everything  
they want."

"They're fairly content. I only over-  
looked one point. Forgot to provide  
any postcards of such points of in-  
terest as the henhouse and the  
pump."

### Another Blow at Tradition.

"I don't believe," said Mr. Growcher,  
"that nature intended the country to  
be used as a picnic ground."

"Why not?"

"If she had she would have arranged  
to grow sardines, hard-boiled eggs and  
lemonade as local products."

### SURE THING.

The Major—Do you think balloons  
and airships will be useful in war?  
The General—They'd be fine things  
for deserters.

### Patriot Perils.

To private life, in this unresting land,  
How many public servants hold have  
gone?  
It's difficult to get an office and  
Considerably more so to hold on.

### Heartthrobs.

Pattence—It is said that man has  
never constructed a piece of machin-  
ery with the efficiency of the human  
heart. It has a capacity of 4,622 gal-  
lons per day.

Patrice—I never knew before that  
they measured love by the gallon.

### How to Nail Them.

Bill—When a Japanese maiden de-  
sires to show marked attention to her  
lover she uses the sharpened point of  
one of her finger nails in writing to  
him.

Jill—I suppose many a poor Jap  
has been "nailed" that way.

### Looks Suspicious.

Mrs. Nupier—Are the Bridelums  
happy with each other?

Mrs. Alters—I haven't heard them  
say; but I notice they never speak to  
Mrs. Lovitt any more—you know, she  
is the lady who introduced them.—  
Lippincott's Magazine.

### Making Him Useful.

"Foster why do you encourage that  
city dude to call on you?"  
"Father insists on it. He has the  
fly swatting habit, that city feller has.  
Yesterday afternoon he sat on the  
porch and killed 400 flies."

### Expectation.

"What do you want, ma'am? Do  
come here and buy!"  
"Not today, but in a few days we  
shall inherit 3,000 marks, and I want  
to look at something now."—Meggen-  
dorfer Blaetter.

### Suspicious.

Editor—Have you submitted this  
poem anywhere else?  
Jokesmith—No, sir.  
Editor—Then where did you get  
that black eye?—Satire.

### TAKING NO CHANCES.

"Is Mrs. Tracey in?" the caller  
asked.

The hired girl looked her over with  
suspicion.

"Are you an agent for the rough-dry  
laundry?"

"No, indeed."

"You ain't introducing any foolish  
labor-saving patents for the kitchen,  
are you?"

"No."

"The reason I ask," the girl ex-  
plained, "is that a lady I let in yes-  
terday turned out to be selling electric  
wringers, and I heard her tell Mrs.  
Tracey that half the society women of  
the Oranges had bought her machines  
and let their help go. But if you're  
just a plain caller you can come in."

### Due Regard for Appearances.

Caller—I understand there are sev-  
eral vacancies in your working staff,  
and I should like a job as solicitor.

President of Life Insurance Com-  
pany—Beggings your pardon for my  
seeming rudeness, young man, you are  
too skinny and cadaverous to be a  
good walking advertisement for an in-  
stitution like ours. Good morning.

### A POINT IN FAVOR.

Pippins—Trolley cars are a great  
blessing.  
Sippins—They be thet. They be th'  
only things around here thet an auto-  
mobile is afraid of.

### If You Can't Get the Real Thing—

"Vegetable oysters, begohe,"  
Says Ginx, "will do fully as well,  
With vinegar made from cornbees  
And pepper from cocoanut shell."

### Motor Murder.

"What's your hard luck story,  
hobo?"  
"I was a prosperous restaurant  
keeper in New York. But that last  
murder ruined me business."

"As to how?"

"After that, every time an automo-  
bile rolled up to me door me patrons  
all rushed out at the back."

### Founding a Career.

"That was a great speech you  
made," said the enthusiastic friend.

"Do you think it will help me?"  
asked Senator Sorghum.

"Unquestionably. It may not have  
much influence in public affairs, but  
it ought to get you an engagement  
with any lecture bureau."

### Was Short.

Barber—Hair cut, sir?  
Customer—Yes, please.

Barber—Short?  
Customer (feeling in his pockets)—  
Well, I am a little. Will it do if I  
pay you Saturday?—London Tele-  
graph.

### What He Had Done.

"What have you ever done for me?"  
complained the young man whose  
father had chided him for his in-  
ability to get ahead.

"Well, I kept your mother from  
naming you Percy or Clarence."

### Proximity.

"Mamma, I think Henry is going to  
be a linguist."

"Why, dear?"  
"I have just been listening to him,  
and in less than three minutes he  
used five different kinds of slang."

### THE REASON.

Clara—Why did you break your en-  
gagement with Jack?

Vera—What good is a man to you  
with rheumatism in both arms?

### Revived.

There was a man in our town  
Who laid his down one day to die,  
But got right up again when told  
Of a circus coming, by and by.

### In the Printer's Office.

"That copy is damning proof of our  
charges. Where is it?"  
"The damning copy? I guess the  
devil's got it."

### WHEN HARMON WAS A BOY

Example of Shrewdness That the Av-  
erage Mother Would Meet With  
Stern Correction.

Gov. Judson Harmon of Ohio,  
though a fearless speaker on occa-  
sion, is equally noted for his pre-  
sident silences. When he was a small  
boy in an Ohio village his chief play-  
mate was another small boy named  
Bill.

Among the legitimate objects of  
boyish foray the pair at one time  
gave their attention to a supply of  
fruit which Judson's mother had  
stored in a cherished recess. When  
Mrs. Harmon finally discovered that  
the fruit was diminishing she prompt-  
ly attributed the loss, with a mother's  
partiality, to her son's playmate,  
whose roguish traits were glaringly  
apparent to her.

Bill at his next visit received her  
vigorous denunciation without affirma-  
tive or denial, though not without  
glances of indignant inquiry at Jud-  
son, who stood silently by, with a  
simulation of surprise and regret.

As soon as the boys had escaped to  
the yard, Bill, in righteous wrath at  
the supposed treason of his pal, burst  
out:

"Look here, Jud! Were you ornery  
enough to lay the blame of that steal-  
in on to me?"

"Course not!" Jud replied. "What do  
you take me for?"

"Well, it looked mighty like you had,  
when you stood there all the time  
a-sayin' nothin'."

"Yes, Bill," admitted Judson, with a  
cautious glance toward the house.  
"But as long as there's any fruit left,  
let 'em suspect you. If they're all the  
time watchin' the outside I can be  
usefuller on the inside. See?"—Judge.

### PLAN TO USE OCEAN WATER

Engineers of California City Have  
Project Which Does Credit  
to Their Ingenuity.

This city is considering a unique  
plan for solving the serious water  
problem which it faces. The supply  
is already inadequate, and an applica-  
tion for a part of the Owens river  
from Los Angeles has not been grant-  
ed. Now it is proposed to distill  
ocean water for domestic purposes,  
and the municipality may purchase  
the Burning mountain, several miles  
up the coast in the Santa Monica  
range, for use as a heating plant. It  
is believed the sea water could be car-  
ried through a "U" pipe deep to the  
hot interior of the smoking hill and  
distilled at practically no cost. Power  
might be produced, some engineers  
think, that would enable the munici-  
pality to maintain an electric light-  
ing plant.—Santa Monica Correspond-  
ence San Francisco Chronicle.

### Crosses Lake on Water Shoes.

A German cabinet maker has con-  
structed a pair of water shoes with  
the help of which he walks upon the  
water. He has already crossed Lake  
Ammer in Bavaria, 12,000 feet wide,  
in two hours.

These water shoes are really two  
long, narrow boxes of pine wood,  
squared off at the rear end and shaped  
like the bow of a boat in front. To  
preserve his balance the traveler  
grasps two upright posts. At the outer  
edge of each box or shoe three small  
paddles, shaped like rudders, are fast-  
ened. These move on hinges and are  
worked by a sliding mechanism that is  
operated by the traveler pushing his  
feet forward alternately, like a boy  
learning to skate. He can travel rap-  
idly and with safety on smooth water,  
although the apparatus is probably not  
fit for use in stormy weather. Those  
who have tested it assert that it does  
not tax the strength as much as row-  
ing a moderately sized boat. The in-  
ventor uses his water shoes almost  
every day for crossing the lake and  
transporting his tools and a moderate  
amount of luggage.

### Woman Bank President.

Mrs. Elizabeth Davidson has the dis-  
tinction of being the only woman bank  
president in the state of Maine and  
the fourth in this country. The bank  
was founded 19 years ago and for 13  
years continued under the same man-  
agement and in the same small rented  
room. The first president dying, the  
directors elected Mrs. Davidson to  
take his place. It was such a small  
matter that they were willing to trust  
it to a woman. Mrs. Davidson went  
into the business with such vim that  
the deposits increased from hundreds  
to thousands and tens of thousands.  
From one rented room the bank quar-  
ters increased steadily, and a short  
time ago it was moved into a fine new  
building erected for it. Mrs. Davidson  
attends every meeting of the directors  
and keeps in close touch with every  
detail of the business.

### When Right Seemed Wrong.

Brown, a stranger in a Canadian  
city, stopped a pert looking newsboy  
and asked directions to a well-known  
park. He grew wrathful as he repeat-  
ed the urchin's instructions.  
"Take any old street car," Brown  
echoed.  
"Yes."

"And at the end of the line change  
to the first young street car. Is that  
what you said?"

"Yes," answered the boy with a  
grin. Then he shied off at the gentle-  
man's gesture toward his cheek.  
"You'd better run," Brown called  
after him; "you needn't try your  
smart tricks on me, or I'll thrash you."  
He walked away, stopped at a news-  
dealer's to buy a city guide, and found  
the directions to the park as follows:  
"Take any Olde street car to the end  
of line, then change to Yonge."

### NOVEL USE FOR MUSIC

MAY BE MADE TO EXTINGUISH  
FIRE IS CLAIM.

San Francisco Man Makes the Asser-  
tion, and Bases It on Vibration  
Theory—Scientists, Unconvinced,  
Listen With Respect.

When Charles Kellogg of San Fran-  
cisco announced that he could sing a  
fire out there was scoffing among the  
unbelievers. They had heard of this  
man before, and knew he could imi-  
tate any bird he admired in the wood-  
land; that he had been able to pro-  
cure wonderful pictures of wild ani-  
mals through the Sierra Mountains,  
because he made them completely un-  
afraid by his singing; they knew that  
serpents had absolutely no terrors for  
him. But a fire, they argued, "has  
no life, no mind, therefore it cannot  
be hypnotized, tamed or lulled."

Nevertheless, fires are being "sung  
out" under test conditions

### TO AILING WOMEN

A LITTLE SOUND ADVICE WILL HELP MANY A SUFFERER IN DIXON

No woman should consider herself healthy and well if the kidneys are weak. Poisons that pass off in the secretions when the kidneys are well, are retained in the body when the kidneys are disordered. If the kidneys and bladder become inflamed and swollen worse troubles may quickly follow. This is often the cause of bearing-down pains, lameness, backache, etc. Uric poisoning is also frequent cause of headaches, dizzy spells, languor, nervousness, and rheumatic pains.

When suffering so, try Doan's Kidney Pills, remedy that has proven effective in thousands of such cases. Let a Dixon woman tell of her experience.

Mrs. F. E. Self, 1009 Highland Ave., Dixon, Ill., says: "The use of Doan's Kidney Pills has been very beneficial to me. I am glad to recommend this remedy for kidney trouble and backache."

The above statement must carry conviction to the mind of every reader. Don't simply ask for a kidney remedy—ask DISTINCTLY for DOAN'S KIDNEY PILLS, the same backed by home testimony. 50c. all stores. Foster-Milburn Co., Props., Buffalo, N. Y.

### OIL SECRETS BARED

WITNESS IN PIERCE SUIT TELLS HOW JOHN D. WAS ENRICHED.

Presented With \$7,250,000—Compliance With Federal Order Made Stock Increase.

Chicago, Oct. 1.—Five men, holding only 17 shares of stock, ordered the \$29,000,000 stock dividend distributed last March to the shareholders of the Standard Oil company of Indiana, and thus made John D. Rockefeller a present of \$7,250,000, without even consulting his wishes.

Such was the testimony offered yesterday in the legal fight between the Rockefeller interests and a faction headed by H. Clay Pierce, in which control of the Waters-Pierce Oil company of St. Louis is at stake. The scene of the contest was shifted to Chicago, and witnesses were examined in room 522 of the First National Bank building before E. D. Pomeroy, acting as commissioner for the Missouri circuit court.

George W. Stahl, secretary, treasurer and director of the Indiana company, testified about the \$29,000,000 stock dividend.

"The directors simply decided to make the distribution and none of the stockholders ever complained," said Mr. Stahl. "The dividend increased the outstanding stock from \$1,000,000 to \$30,000,000."

The contest began one without quarter, in which fabulously rich are striving to crush each other. Attorney Fordyce persisted in his efforts to prove Rockefeller, John D. Archbold, H. M. Flagler, J. A. Moffett or others of the inner circle of Standard Oil are still directing the policies of the old subsidiaries, but the witness stuck to his statement that none of them interfered with the management of the Indiana company.
